

HARDWOOD BOX SASH WINDOWS

Sliding sash windows, with boxes for the weights, pulleys and cords, and the original design details intact, are just about the most delightful and efficient means of ventilation ever made.

Thanks to twenty years of continuous research and development, the Original Box Sash Window Company has been able to meet the Government's new Building Regulations Part L for several years.

Traditional English timber sliding sash windows, which look just like the originals yet meet the new compulsory standards, that is what we supply and install. Each and every job, carried out by the Original Box Sash Window Company, qualifies for official registration.

SPECIFICATION

Materials

A combination of our Patented glass sealed-units is used in conjunction with the finest hardwoods.

The fine timbers are morticed and tenoned using traditional hand-made skills.

Heavy duty cill.

All timber from controlled sustainable sources.

The combination of low emissivity glass and timber frames ensures the most effective thermal barrier possible for windows: U value 2.0. which complies with the Government's Building Regulations Part L.

Performance

The Original Box Sash Window Company's outward opening windows and doors pass the following:-

B.S. 6375 & B.S. 5368 part 1, Air permeability.

B.S. 6375 & B.S. 5368 part 2, Water tightness.

B.S. 6375 & B.S. 5368 part 3, Wind resistance, strength and safety.

Finishes

Glass: clear, obscure, leaded and/or coloured.

Wood: natural or white micro-porous coating.

Air seals: white.

Design

To match the property.

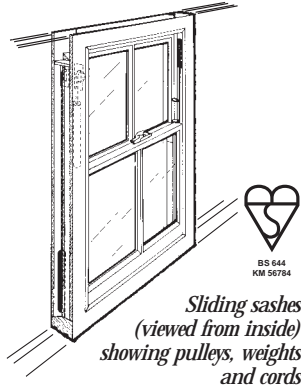

Our surveyor will be happy to lend his expertise in helping you select the best windows for your home.

Total Quality Assurance

BS EN ISO 9002

Certificate No. SM2791

Sliding sashes (viewed from inside) showing pulleys, weights and cords

Originality

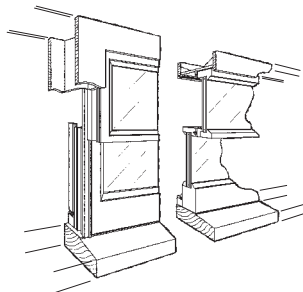

Hand scribed original moulded timber profiles, Lamb's tongue inside, putty-line outside, as sample shown by our surveyor. Slim, elegant glazing bars, on double glazing.

The Company has an enviable reputation for its 'perfect match' windows, winning official Awards.

Security

Safety glass as standard.

Our windows are famously difficult to break into. Our design has been commended by the Police on many occasions after frustrated burglary attempts.

Sliding sashes with SASHSEAL™ draught control system and sealed unit double glazing (viewed from outside)

Weather Protection

3 coats of micro-porous paint, factory applied by airless spray.

Pre-coating in the factory ensures a superb protective surface to your new windows. Every touch-up simply adds to this.

Maintenance

Inspection every two years and touch-up as necessary.

Re-coat with micro-porous paint when required.

It's so easy to keep your windows looking in perfect condition at all times. A quick re-coat (very easy with micro-porous covering) makes your windows look like new.

Supply

Hand-crafted to order only.

All windows are individually built up on the work bench, using the traditional crafts and methods of English joinery

Services

Consultation and advice over the phone, or on site by appointment.

Best Advice Report and Quotation.

Installation.

Individual Customer's specification stored on database (Total Quality Assurance).

Note: The Company's policy is one of continual improvement and refinement and the Company reserves the right to change specifications without notice. Final specification will be contained in the contract between the Company and the Customer which always takes precedence over this information sheet.
