

BEFORE & AFTER CASE STUDY

EDWARDIAN END-TERRACE HOUSE

The owner wanted the original, and considerable, attractiveness of the house restored. The Original Box Sash Window Company met the request in full. By reproducing the design of the windows next door, which were original, - and incorporating sealed unit double glazing which complies with Building Regulations Part L, - a stunning transformation of the house was achieved. The owner also gained a new level of interior comfort. Expertise equals peace of mind.
