

## ORIGINALITY

*You can protect and enhance the value of your property by maintaining its original features. Windows and doors are the most prominent of these.*

*All The Original Box Sash Window Company's Windows and Doors are designed to look like the originals.*

*The original appearance is maintained, even with our improvements of sealed unit double-glazing and draught excluders. Stiles, glazing bars and mouldings, the most important original features, are all of traditional design.*
